

ARTY & BRAVE

We have curated a collection of Atlas Concorde's structured wall tile in the 16x32 rectified size. The soothing undulation of the Wave and the dynamic geometry of the Blade comes in just 2 colors. We also have a plain field tile in the same 2 colors. The Sugar (matte white) allow the size and structure to shine and will elevate any project to maximum elegance. The Gypsum color have a sculpted stone effect that is natural and has a strong impact while offering the advantages of a ceramic product. Using the structured options as an accent or in an entire area creates drama without being overwhelming. Please note that the Gypsum color have multiple images of different kinds of stone veining mixed together.

Usage

Brave and Arty are suitable for use in commercial and residential interior wall applications.

Installation Information

Brave and Arty are intended for interior walls. If installing with a cement-based adhesive, it is recommended to use flexible setting material that meets the ISO S1 standard (e.g. Servolight by Kiesel). All substrates should be properly reinforced to be sure there is no movement. Wood studs need to be dry and properly braced with a minimum depth of 3-1/2". For mortar installations, the mortar bed has to be cured (less than 2% humidity) and has to have proper reinforcing. Brave is designed and recommended to be set with a straight joint. Care should be taken to have the pattern align from piece to piece to create a continuous flow.

Due to the nature of this large format wall tile, orders must be for full boxes only. Please note that we do not accept returns in general. In the rare occurrence that we make an exception and do take a return of this product, only factory sealed boxes can be accepted.
