

PASTORELLI

COLORFUL

Pastorelli's Colorful offers a long, rectangular format in porcelain. The line's palette infuses an injection of color that will add vitality to any design. The surface structure is not flat, with undulation and also a mesh-like imprint reminiscent of fabric. The structure along with the glossy glaze plays with the light reflection, adding depth and complexity to the tile's appeal.

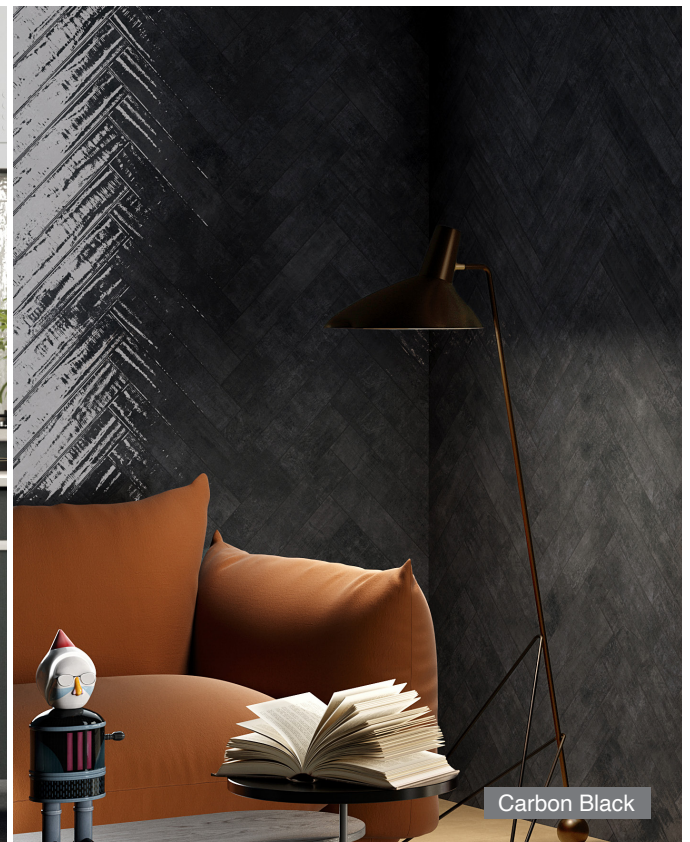

Ocean Blue

Sunflower Yellow & Pine Green

Cotton White

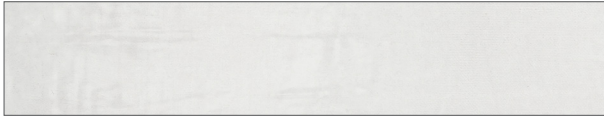

Carbon Black

Colors are intended as a guide only and may vary from actual tile. Sizes listed are nominal. Please check samples before making final selection and to get actual dimensions for layout. See reverse side for additional product information.

Product Information

Colors and Size (Non-Rectified)

3 x 16 PICT--/316

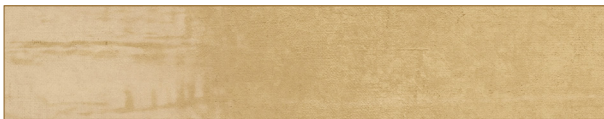

Cotton White (PICLCW/316)

Ocean Blue (PICLOB/316)

Pine Green (PICLPG/316)

Sunflower Yellow (PICLSY/316)

Carbon Black (PICLCB/316)

Coordinating Trim

1/2 x 12 Pencil Bullnose PICT--/PB112

1/2 x 12 Pencil Bullnose and Profile

Expect variation in color and size between field and trims. There is limited shade variation on the pencil bullnose; the shading is more uniform than the field tile.

Usage & Installation

Colorful is intended for walls. As a porcelain, it may be suitable for some residential floors that do not require DCOF, but it should be noted that, as with all glossy glazes, it may be subject to scratching. This is especially true for dark colors like Carbon Black. Care should be taken with handling and installation.

The minimum recommended grout joint is 3/32". Please note that this material is non-rectified, and there may be slight differences in the size and shape of the pieces. This can be worked out by the installer by adjusting the size of the grout joints, similar to how handmade tile is installed.

It is important to pull from multiple boxes, rotate pieces, and note the placement of the different images and molds during installation to get the proper final blend. Due to the different production techniques and times, expect variation in size and color between field and trim.
