

# Aurora

## HEX MOSAICS

The Aurora series is the perfect choice for restoration projects or those seeking to add a classic element in a contemporary setting.

These Japanese Glazed Porcelain Mosaics offer ease of maintenance, while keeping with the aesthetics of classic hex tiles. The Mosaics are available in both 1", 2" and 4" Hexes for even more design possibilities.

### Glazed 1"

Matte Black

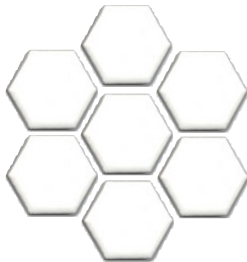

Matte White

### Glazed 2"

Matte Black

Matte White

Shiny White

Colors are intended as a guide only and may vary from actual tile. Sizes listed are nominal. Please check samples before making final selection and to get actual dimensions for layout. See reverse side for additional product information.

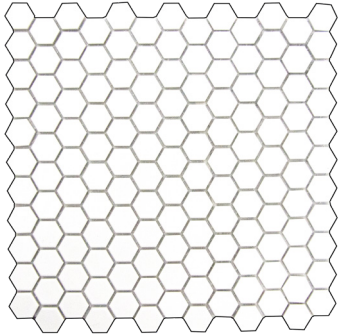

## Product Information

**Sizes and Colors** (Mounted on mesh, sizes are approximate)

### 1" Hexagon Field

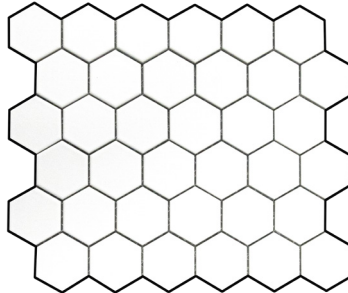

AA100/HX	Matte White
AA199/HX	Matte Black

1" Hexagon Field

### 2" Hexagon Field

AA200/HX	Matte White
AA299/HX	Matte Black
CL270/HX	Shiny White

2" Hexagon Field

The shade variation in this series is a natural and intentional characteristic of this type of high-fire porcelain material.

## Installation Information

Please note that the hexagon pieces of this high-fire porcelain material may have subtle differences in sizing, the pieces are hand-mounted on the sheets, and the backing is a flexible fabric mesh. This means that the spacing may be slightly irregular, especially if the sheets stretch or compress during transit or installation. During installation, when the mesh becomes wet, it becomes more flexible making it easier to stretch or compress. This allows the installer to work with grout joints, mating the sheets and controlling the alignment, but it can also lead to misalignment if care is not taken during installation.

It is recommended to use a grout color similar to the color of the tile and to avoid contrasting grouts.

Please also note that it is important to lay boxes flat during transport and storage.
